Projects

Idol On Duty

September 2025 - Current

Third-person platformer beat-em-up about half JPop idol, half Metal-playing demon Aiko.
Developed in Unreal Engine 5.
Narrative designer, responsible for dialogue and helped fleshed out original concept.
Redesigned HUD, working with UI artist and programmer.
Currently serving as Design Lead.

COFFEE

January 2025 - August 2025

2D arcade barista game in a custom engine.
Served as co-designer, prototyped and playtested using Unity build.
Conceptualized customer characters and wrote dialogue for cancelled dialogue system.
Designed all of the sound effects.
Created trailer for the game.
Redesigned HUD for cancelled Steam release.
